

義  
勇  
仁  
礼  
真  
名  
譽  
忠  
義

## RECTITUDE

I do the right thing  
I am an example  
I am fair and impartial

## COURAGE

I know risks are everywhere  
I am not ruled by risk  
I face risks, I do not flee

## BENEVOLENCE

I donate my time and skill  
I assist and mentor the learner  
What I write, others read

## RESPECT

I respect my skills  
I respect others' skills  
I respect the problems I face

## HONESTY

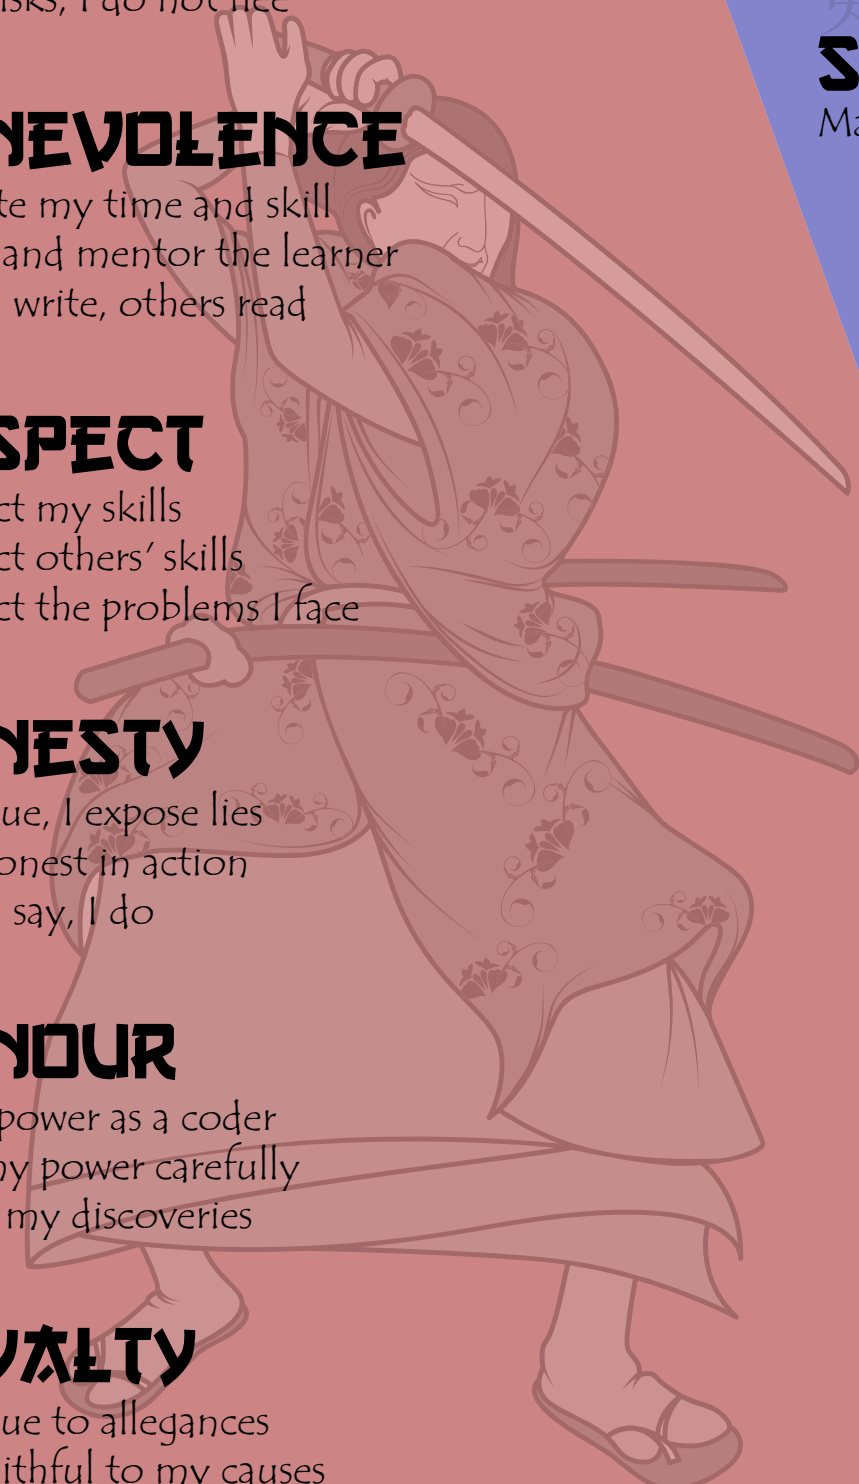

I am true, I expose lies  
I am honest in action  
What I say, I do

## HONOUR

I have power as a coder  
I use my power carefully  
I share my discoveries

## LOYALTY

I am true to allegiances  
I am faithful to my causes  
I am true to what is important

精神的 教養

## SPIRITUAL REFINEMENT

Practice the basics. Revisit old solutions.

体術

## UNARMED COMBAT

Diagram, chart, work out problems before coding

劍術

## SWORD

Manage your IDE

棒術

## STAFF AND STICK

Manage and respect Libraries

手裏劍術

## THROWING BLADE

Check your targets

槍術

## SPEAR

Communicate in all forms

長刀術

## NAGINATA

Manage your libraries/ language features

鎖鎌術

## CHAIN AND SICKLE

Manage your build/ integration

火薬術

## EXPLOSIVES

Test, monitor and evaluate metrics

変装術

## DISGUISE

Update patterns, a11y; read feature lists

忍び入り

## STEALTH

Check User-mindset, requirements

馬術

## HORSEMANSHIP

Mentor/mentee, peer and collab activities

水練

## WATER-TRAINING

Coding-challenges, learn outside peers

謀略

## STRATEGY

Management, finances, post-project reviews

長保

## ESPIONAGE

Read security blogs, practice defensive coding

隠遁術

## ESCAPING

Contracts and laws

天門

## METEOROLOGY

Self-improvement, read and share the new

地文

## GEOGRAPHY

Change what isn't working for you
